Chicago, IL

SUMMARY

Computer Science student and freelance Full-Stack Developer with hands-on experience building web applications using React, Node.js, and Java. Passionate about AI/ML and UX design, with a proven ability to deliver scalable solutions through freelancing and collaborative projects. Seeking a software engineering/Internships role to leverage technical skills in problem-solving and innovation.

EDUCATION

Bachelor of Science in Computer Science

Northeastern Illinois University | Expected Graduation: Dec 2025 | GPA: 3.0

Relevant Coursework: Data Structures, Algorithms, Database Systems, OOP (Java)

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML/CSS

Frontend: React, Responsive Design, UX Principles

Backend: Node.js, Express, REST APIs

Databases: MySQL, MongoDB

Tools: Git, GitHub, Docker, Postman, AWS

EXPERIENCE

Freelance Full-Stack Developer

| Self-Employed | Dec 2023-Present

- Developed web applications for clients using React and Node.js, improving user engagement by through responsive design.
- Designed and deployed RESTful APIs with MongoDB to handle daily form submissions.
- Collaborated with clients to translate requirements into scalable features, ensuring on-time delivery.

PROJECTS

Student Grade Checker (Java, MySQL) - 2023

- Collaborated with a team to build a grade-checker web application that provides feedback from teachers.
- Focused on backend logic, working with Java and SQL to ensure smooth data storage and retrieval.

Library Management System | MySQL, Java - 2024

- Designed an ER model and implemented a normalized database.
- Built a Java terminal app to run optimized SQL queries (JOINS, indexing).
- Populated records ensured data integrity with constraints.
